

IVECO S.p.A.  
PD&E/ETS/HTA&R/GD/BG  
2015-08

Turin, 5 June 2015

Oliva Torras  
Sir Joan Carlos Puigtió  
Cami de Rajadell,s/n  
08241 MANRESA  
Barcelona - Spain

IVECO have no objection against the application of the "Mount & Drive" compressor kits OLIVA TORRAS n° **KC14080371** and **KC051000040** (the "Kits") on the 2,3 litre engines of New Daily 33S (106hp) or 35S (126 hp) or 35C (146 hp) if the following conditions are strictly respected:

- application in compliance, without exception, to all legal requirements of each State in which the vehicle will operate
- installation carried out in qualified workshops, by use of adequate technical skills and in conformity to all instructions provided by OLIVA TORRAS and IVECO (bodybuilder guidelines, engineering information)
- final fulfilment in compliance with all requirements necessary to ensure the safety of the Iveco products and of the products Oliva Torras
- without compromission of the original Iveco components and of their functionality.

IVECO shall not be held liable for:

- claims arising out or related to poor design or wrong manufacture of the kits or arising out wrong installation of the kits
- responsibilities arising up insufficient knowledge or incorrect interpretation of the legal provisions in force.

OLIVA TORRAS shall indemnify and hold harmless IVECO against any claims and any sort of damages arising up from defects, malfunction or other of the Kit.

B. Gianolla
